

Mohit Thakur

Bengaluru, Karnataka, India | mohitthakur962000@gmail.com | linkedin.com/in/mohit-thakur

PROFESSIONAL SUMMARY

Full-Stack JavaScript Developer with 3+ years of hands-on experience building end-to-end web applications. Proficient in React.js, Node.js, MongoDB, JavaScript (ES6+), and REST API design. Strong expertise in frontend component architecture, backend API development, database design, and JWT authentication. Experienced in Agile environments delivering scalable, production-ready applications.

TECHNICAL SKILLS

Frontend: React.js, React Hooks, Context API, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5, CSS3, Vite.js
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware Design
Database: MongoDB, Mongoose, Schema Design, CRUD Operations, Data Modeling
Tools & Platforms: Git, GitHub, VS Code, Postman, npm, Vercel, Railway, Linux

EXPERIENCE

Wipro

Project Engineer

Bengaluru, Karnataka, India

November 2024 – Present

- Worked on full-stack web application development using modern JavaScript frameworks and enterprise technologies.
- Collaborated with cross-functional teams in Agile environment, delivering features on schedule with high code quality.
- Contributed to frontend development using React.js, implementing responsive UI components and managing application state.
- Participated in API integration, debugging, and code reviews to maintain architectural standards and best practices.

JetaTech InfoServices Pvt Ltd

Associate Software Engineer

Remote

March 2022 – October 2024

- Developed React.js web applications using functional components, React Hooks, and Context API for state management.
- Implemented REST API integrations with error handling and data transformation within React components.
- Built responsive user interfaces using HTML5, CSS3, Bootstrap, and Tailwind CSS for multi-device support.
- Optimized frontend performance by analyzing and eliminating unnecessary component re-renders and memory leaks.
- Collaborated with backend developers and QA teams to deliver bug-free, production-ready features.

PROJECTS

Task Manager Application

React.js Frontend & Node.js Backend

Full-Stack MERN Project

Personal Project

- **Frontend:** Built responsive dashboard using React Hooks (useState, useEffect, useContext) with real-time task updates. Implemented Context API for global state management (AuthContext, TaskContext). Designed UI with Tailwind CSS and GSAP animations.
- **Backend:** Developed REST API with Express.js including JWT-based authentication, signup/login endpoints, and CRUD operations for tasks. Implemented middleware for token verification and authorization checks.
- **Database:** Designed MongoDB schemas with Mongoose for User and Task collections. Implemented password hashing with bcryptjs, proper relationships via userId references, and data validation.
- **Key Features:** JWT token-based authentication, protected routes, task filtering & sorting, error handling, responsive design across devices.
- **Deployment:** Frontend deployed on Vercel, Backend on Railway with environment variable configuration.

EDUCATION

Prof. Ram Meghe Institute of Technology & Research

Bachelor of Engineering – Mechanical Engineering

Amravati, Maharashtra

2019 – 2022

Government Polytechnic, Amravati

Diploma in Engineering – Mechanical Engineering

Amravati, Maharashtra

2016 – 2019
